PROGRAM INSTRUCTION

TO: Child Care and Development Fund (CCDF) State and Territorial Lead Agencies and other interested parties.

SUBJECT: Child Care and Development Fund (CCDF) Child Care Annual Aggregate Report and Instructions (ACF-800 Report) for State and Territorial Lead Agencies.

REFERENCES: The Child Care and Development Block Grant (CCDBG) Act of 1990, as amended (42 USC 9857, et seq.); regulations at 45 CFR 98.70(c). Relevant [Technical Bulletins](#) are located on the Office of Child Care website.

PURPOSE: To inform States and Territories that the Office of Management and Budget (OMB) has approved changes to the ACF-800 Report that will allow the Office of Child Care to collect and report critical data about the use of any COVID-19 supplemental CCDF funds appropriated by the Coronavirus Aid, Relief, and Economic Security (CARES) Act, Coronavirus Response and Relief Supplemental Appropriations (CRRSA) Act, and the American Rescue Plan (ARP) Act. The form and instructions are attached.
NOTE: ARP Act Stabilization Grants funds or other initiatives funded with CCDF quality dollars (e.g., quality and supply building grants) that are NOT linked to the eligibility of specific families and children ARE NOT to be included in the ACF-800 report as these activities will be reported under other data collection efforts.

BACKGROUND: Annual aggregate child care program information for the CCDF is required by Section 658K of the CCDBG Act, as amended. The annual aggregate administrative information received through this collection provides the means to analyze and evaluate the CCDF program and the extent to which States are assisting families in addressing child care needs.

State and Territory Lead Agencies were provided additional discretionary CCDF Federal funds for child care to respond to the COVID-19 pandemic health crisis through the CARES Act, CRRSA Act, and ARP Act. Lead Agencies may expend the funding on a combination of activities, including direct services to children of essential workers (e.g., medical workers, first responders, etc. as defined by the State/Territory) during this health crisis, continuing payments to providers who were forced to close during the pandemic, and numerous other actions.

The revised ACF-800 Report will provide the Administration for Children and Families (ACF) with the information necessary to make its biennial Report to Congress, report critical data about the use of CCDF CARES Act, CCDF CRRSA Act, and CCDF ARP Act funding, address national child care needs, offer technical assistance to grantees, meet performance measures, and conduct research.

Report and Instructions: The OMB approved an updated ACF-800 form that requires the State and Territory Lead Agencies to report annual estimates of families, children and providers receiving subsidies due to COVID-19 circumstances, which were funded through grants, contracts, or certificates. These annual estimates will be reported as part of “Element #15: Other: COVID-19 Supplemental CCDF Funding”. The annual estimates include the numbers of:

- Families and children served whose subsidy was fully or partially funded with COVID-19 supplemental CCDF funds (CCDF CARES Act, CCDF CRRSA Act, CCDF ARP Act Discretionary Supplemental dollars);
- Children and families of essential workers (e.g., medical workers, first responders, etc. as defined by the State/Territory) who received a subsidy because of the COVID-19 crisis (funded with CCDF CARES Act, CCDF CRRSA Act, CCDF ARP Act Discretionary Supplemental, and broader CCDF dollars); and
- Providers that received subsidies while the provider was temporarily closed, based on enrollment rather than attendance of subsidy-eligible children (funded with CCDF CARES Act, CCDF CRRSA Act, CCDF ARP Act Discretionary Supplemental, and broader CCDF dollars).
